# Our Philosophy

Welcome to our Annual Report of 2020, through which, we are proud to share all that we achieved last year despite the pandemic affecting our work and daily lives, and introduce you to a few of the people for whom our work made a difference.

Being а "health focused" organization, we understand that health is a human story. There is so much more to living with diabetes than just taking medicines, managing lifestyle and getting your blood tests done. Diabetes is not only a lifetime condition for a few, it is a fast growing health challenge becoming more common every day. We believe that this challenging health condition needs to be focused on while keeping the "human-story" in mind. A person living with diabetes must be at the center of our health-care systems. Therefore, we envision strong partnership between care providers and people diabetes with living empowerment, peer support, awareness, health, education and advocacy for the rights of those living with diabetes.

### How We Create Value

### **Peer Support Community Network**

An active network of people with diabetes maintained through social media groups, in-person support group sessions as well as recreational educational activities.

### **Network of Doctors**

A network of doctors throughout the country is standing beside Meethi Zindagi in collaboration for supporting children with diabetes whose parents cannot afford their insulin and test strips.

### **Collaborating Healthcare Institutes**

Collaborating hospitals providing subsidized or free of cost health care to registered beneficiaries. Diabetes Virtual Clinic providing telemedicine consultation and primary care helpline to the diabetes community.

### **Educational Institutes**

Diabetes awareness and education in charity, public and private schools across Pakistan, An aware, empathetic & supportive society is what is built by an aware & educated youth!

# Our Vision

# GREAT LIFE WITH DIABETES

# Our Misson

To raise awareness about diabetes, promote its prevention where possible and make quality care accessible to the diabetes community.

To be an advocate and platform for person-centred diabetes care.

To empower people with diabetes to take up leadership roles in our movement of improving diabetes care.

To protect the rights of people living with diabetes and enable them to take the reign of their lives.

To conduct thorough research, develop and promote electronic and remote healthcare services.

# Our Values

# **Diabetes community first:**

Recognize people with diabetes as the key-stake holders holding the center-stage in everything we do.

# **Integrity, Accountability & Transparency:**

Be honest and transparent to the community we serve and be accountable for action-driven work.

### **Excellence:**

Aim for a higher standard of innovation through quality assurance and effectiveness for the diabetes community.

### **Empowerment:**

Fix larger systematic problems and empower the diabetes community to live thriving lives.

# Our Promises

We will create **awareness in** the society so that everyone can understand and accept the condition; and people with diabetes can enjoy lives free of stigma, judgment & discrimination.

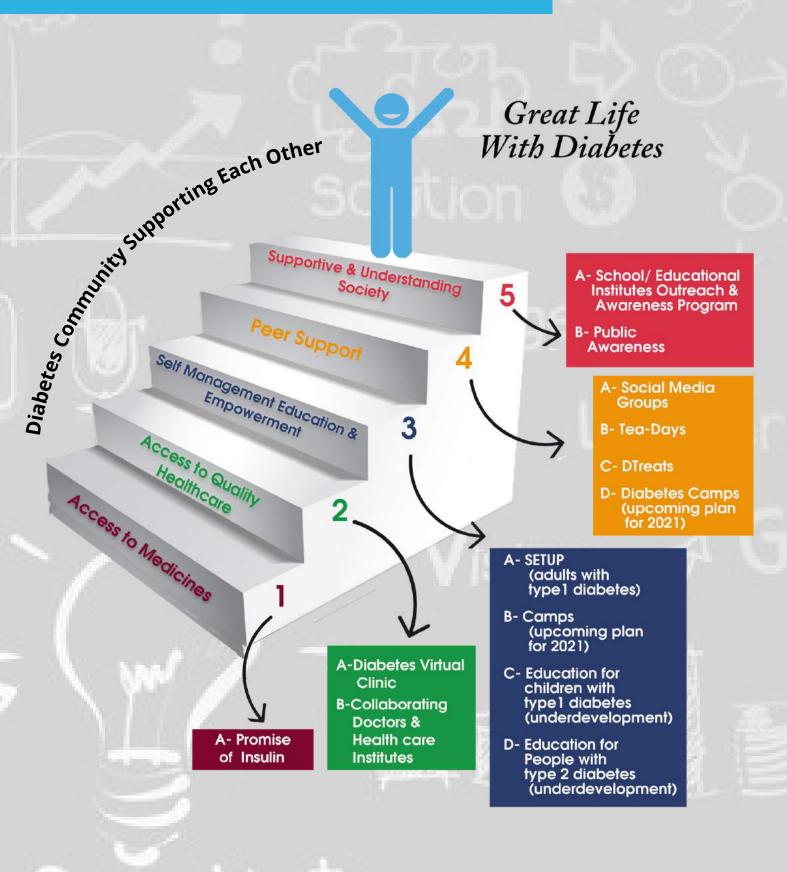

We will **educate** people with diabetes to empower them for proper diabetes self-management and care, with inspiration from their peers lighting up the tricky but worthwhile path.

We will **support** the diabetes community in living thriving lives in a holistic way, by improving psychological, social & physical health outcomes while reducing the inequalities within the community.

# Our Strategic Aims

Creativity Innovation

# Year 2020 in Numbers

Our incredible volunteers peer leaders gave around

of their time to support the community for leading great lives with diabetes.

Questions were asked and support was provided to members

Every day, on average, there were

498 active members

in our community support groups.

The content in our peer support groups was read by community

389780 times.

# Year 2020 in Numbers

were provided to registered children fulfilling our

**Promise of Insulin** in over **28 cities & towns** across Pakistan.

Over 13 M PKR

were donated to us by philanthropists and organizations to help us fulfil our promises to the diabetes community.

We thank our donors, partners, collaborating doctors and hospitals, volunteers, advisors and board members for supporting us in realizing our vision!

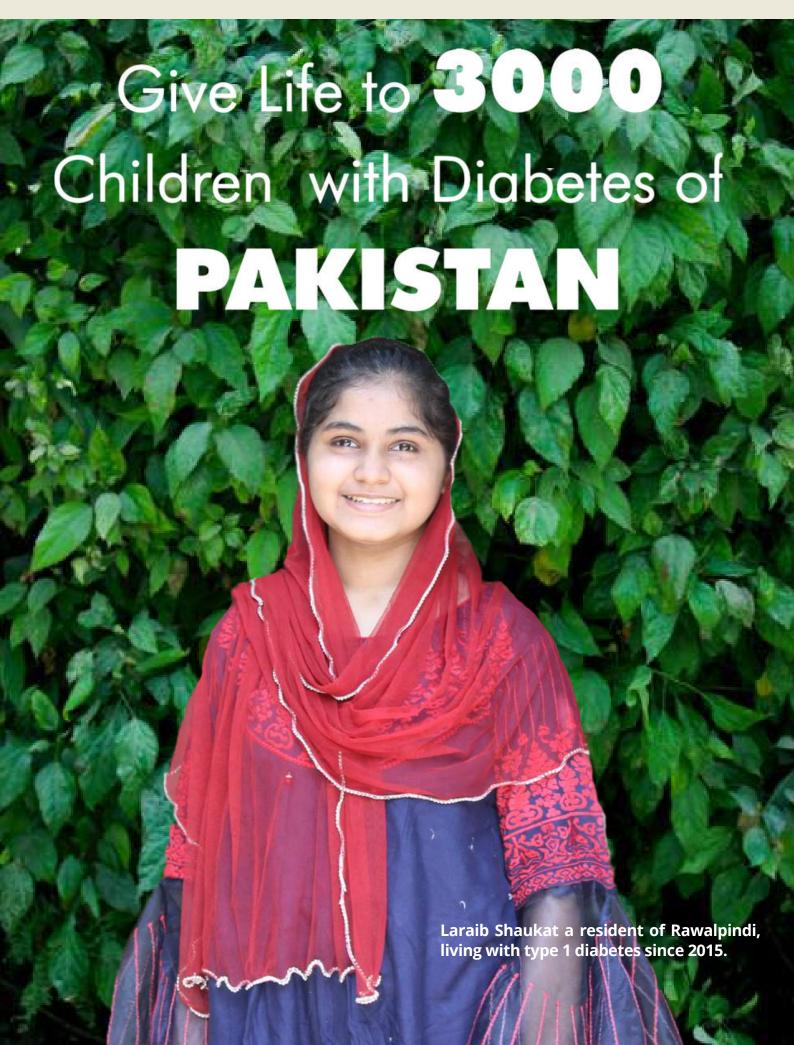

# Promise of Insulin

### **Promise of Insulin**

For people with Type 1 diabetes, insulin is equivalent to oxygen. However, its high cost, makes it unreachable for many.

Meethi Zindagi, paving the way for those families. needing our support, is providing free insulin, blood strips sugar test needles for their children at doorstep, their on monthly basis. On our 2020 iourney provide to personalized healthcare to our registered children with diabetes along with promise to free medicinal support until they are able to provide for themselves, we were able to outreach to children in 28 cities including Quetta and Peshawar. This year, we also joined hands with Institute Abaseen of Medical Sciences, Peshawar and Kohi Goth Hospital Karachi to ensure the provision of insulin to the young diabetes community being treated at the institutes.

# Managing life with diabetes is possible for sure!

Rawalpindi's resident Aryan had been diagnosed with diabetes at the age of 5. Under "Promise of Insulin" campaign, Meethi Zindagi sent messages in different cities. One such message was received by Aryan's parents, which enlightened their hopes.

Aryan Mudassir resident of Rawalpindi, living with type 1 diabetes since the age of 5 years.

"At that time, we didn't have much information about diabetes," Aryan's mother Saima said. "My husband is a security guard, and his income was insufficient to purchase insulin. It is a tough decision when you have only Rs. 5,000 in pocket and you have to choose between food or insulin for your child. Twice, our son fainted because we failed to provide him basic nutrition which his body needs. Thanks to Almighty, ever since he has been registered with Meethi Zindagi, it never happened."

# She dreams to become a doctor!

Islamabad's resident, Bareera was diagnosed with diabetes last year. Her mother shared her experience with us: "Doctor had told us how much important insulin is for Bareera and that's why we tried our best to buy insulin for Bareera. But within few months, we started to realize that it's impossible for us to afford it on monthly basis. My husband is a rickshaw driver and he does not have any fixed income, so it was very hard for us to spare Rs. 6,500 for her insulin.

Bareera Qamar resident of Islamabad, living with type 1 diabetes since the age of 12 years.

Our next visit, I shared our problem with her doctor. Thanks to Almighty, the doctor knew about Meethi Zindagi. Today, I am very much satisfied that my daughter has been receiving proper insulin shots on time and she is living a healthy life."

# Hasaan is no more with us, But we will never forget him

Lahore lost a shining star in the morning of 16th February 2020, when Meethi Zindagi's T1D warrior Hassan departed this world. Before his sad demise, we met Hassan and his mother to know how they become a part of Meethi Zindagi.

Hasaan, diagnosed with type diabetes at the age of 12.

His mother Samreen Asif shared with us: "Since his childhood, Hassan has health issues. Due to scarce income, we hardly managed his medicines and healthy diet. In 2018, he was diagnosed with T1D, which added more burden to our finances in the form of insulin. Though Rs. 6,500/- is not a big amount for many, but with four kids and earning of only Rs. 18,000/-, it was impossible for us to afford it. I am thankful to our health worker who told us about Meethi Zindagi. Through her given number, we contacted them and immediately they registered my son in their 'Promise of Insulin' program."

There are thousands of children like Hassan in Lahore who are getting insulin from government hospitals but this insulin is not sufficient or suitable to their need.

Hassan was among those children who receive Insulin after it became too late. Due to insufficient or unsuitable insulin, these innocent children often fall victim of organ failure. Sadly, the same happened with Hassan. Although he was taking insulin but he lost his life due to liver failure. Timely diagnosis and managing blood sugar level can save many precious lives. Meethi Zindagi is determined to save these innocent souls with type 1 diabetes.

Don't forget that timely and proper Insulin is the only savior for those who are battling with T1D. Pledge your support today because life does not give second chances.

### **Diabetes Virtual Clinic**

With the vision of providing quality healthcare facilities at the doorstep of every Pakistani, we supported Healthcare Pakistan to launch a Diabetes Virtual Clinic (DVC).

Diabetes Virtual Clinic, powered by the telemedicine solution of Healthcare Pakistan, is providing a 24/7 primary care helpline for diabetes management as well as access to specialist care facilities. Diabetes community with access to the internet can remotely access Diabetes Virtual Clinic using their phones or personal computers.

#### Book an online consultation:

https://www.healthcarepakistan.pk/meethi-zindagi-about.php

The first of its kind telemedicine program specially developed for the **Diabetes Community** with the support of Meethi Zindagi.

The World is adopting a New Normal that's why we are supporting Digital Healthcare for you.

### **Diabetes Virtual Clinic**

There is no Endocrinologist in your city? No Problem!

Be Smart & Consult an Endocrinologist Online

### **Peer Support Groups**

We, at Meethi Zindagi, believe in the power of peer support. We provided peer support to the diabetes community by connecting them to support groups online as well as through in-person sessions (Tea-Days) & recreational educational activities (DTreats) for giving emotional and informational assistance, by sharing experiential knowledge. With our established and regulated support groups for the diabetes community, we uplift the community by building their knowledge & morale!

## **Therapy Days (TEA-Days)**

Diabetes is a tricky lifelong condition, often marred with burnouts, lack of motivation and stress. Emotional and social support from others like oneself is gaining fast recognition worldwide for its positive impacts emotional as well as physical health of a person with diabetes. Tea-Days are designed to inspire and motivate anyone attending them. These light-hearted support groups sessions are focusing on developing a community with a sense of belonging among its members, to help them stay inspired, motivated and connected; even during the pandemic, when our Tea-Days become Z-Days!

Tea-Days focus on topics like acceptance, judgements and how to thrive with diabetes for people with type 1, type 2 and family members.

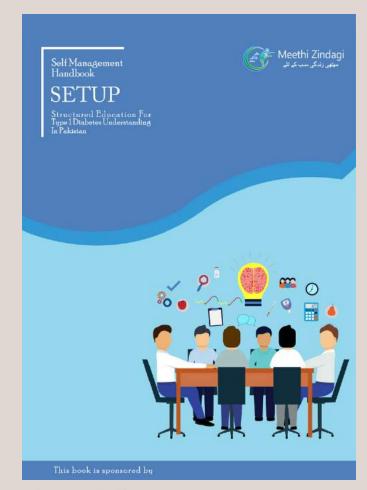

1st Tea-Day held in Karachi 3rd-Oct-2020

### **SETUP**

# STRUCTURED EDUCATION FOR TYPE 1 DIABETES UNDERSTANDING IN PAKISTAN

In light of our mission and strategic aim, that is educating and empowering the diabetes community to lead their lives in a more structured manner, a team of incredible volunteers, including professionals and people living with diabetes, have developed a book and an education curriculum for people living with type 1 diabetes. It encompasses a variety of topics about diabetes self management

We joined hands with Fatima Memorial Hospital (Lahore) to launch our Structured Education for type1 Diabetes Understanding in Pakistan (SETUP) curriculum. The handbook, available in both English and Urdu, has culturally tailored information for local foods and challenges. The handbook will be backed up by workshops to empower people living with type 1 diabetes in 2021

### **MoU with Holy Family Hospital**

In February of 2020, we were able to Sign a Memorandum of Understanding (MoU) with Holy Family Hospital for the twin cities of Rawalpindi/Islamabad. This MoU promises the provision of regular free eye screening of children who are participants of our Promise of Insulin program. We are grateful to Holy Family Hospital for helping us in supporting these little souls. We envision and hope for more MoUs of the like in the near future.

### MoU with Koohi Goth Hospital, Karachi

Meethi Zindagi joins hands with Kohi Goth Hospital Karachi to support deserving children living with type 1 diabetes by providing them insulin & test strips!

### **MoU with AIMS Hospital, Peshawar**

Meethi Zindagi and Abaseen Institute of Medical Sciences (AIMS) join hands for supporting children with diabetes in Peshawar.

Now children in Peshawar can get registered in our Promise of Insulin program!

"Diabetes is not just about taking medicines and managing diet- it impacts every facet of a person's life - including social and professional interactions. Those impact mental health and need to be improved simultaneously with physical well being"

### Supported by:

### **World Diabetes Day 2020**

### Symposium On

Judgments Faced by People with Diabetes and Role of Medical Fraternity,
Academia and Media in Addressing it

### **About the Panelists**

World
Diabetes Day

# **World Diabetes Day Symposium on Judgments**

Anum Anwar, Director Advocacy and Communications thanked the panellists and participants for their valuable contributions and acknowledging support of many philanthropist organisations and individuals standing behind our cause.

World Diabetes Day Symposium on 14th-Nov-2020 at Karachi School of Bussiness & Leadership (KSBL), Karachi

### **World Diabetes Day**

Symposium on Judgments faced by People with Diabetes and role of Medical Fraternity, Academia and Media in Addressing it

On 14th of November this year, we geared up for a very special World Diabetes Day with well-known professionals who shared their thoughts on "Judgments Faced by People with Diabetes and the Role of the Medical Fraternity, Academia and Media in Addressing It". This symposium was organized at the Karachi School of Business & Leadership (KSBL) and supported by PharmEvo Private Limited.

World Diabetes Day Symposium on 14th-Nov-2020 at Karachi School of Bussiness & Leadership (KSBL), Karachi

### **Online Video Sessions**

In this global world, the best way to spread your message to the wide and diverse audience is through social media. Meethi Zindagi has used social media platforms to raise awareness about diabetes and conduct online video sessions to answer frequently asked questions.

Through its Facebook page, Meethi Zindagi connected inspirational individuals living with diabetes & health professionals with the community, for answering queries of all sorts.

In COVID times these video series were widely viewed and followed. some of the people who participated were:

- 1. Dr Fauzia Moyeen
- 2. Dr Atif Munir
- 3. Dr Umar Yousaf Raja
- 4. Dr Sarah Nadeem

- 5. Zeba Bakhtiar
- 6.Talha Khan
- 7. Anum Anwar

Live facebook session for diabetes community on 8th-Nov-2020 with Health Experts from Pakistan Endocrine Society

# Activities & Projects

League of DiAthletes Training Oct 2020

## League of DiAthletes

League of DiAthletes shares a global protocol for practical diabetes educational workshops, hosts type 1 diabetes advocacy training through teamed global challenges releases worldwide media awareness campaigns & envisions a world where diabetes education is accessible, relatable and reliable for everybody.

Ms Anum Anwar, was a trainer for this year virtual training, along with Dr Sana, the keynote speaker at the International Society for Pediatric and Adolescent Diabetes (ISPAD) Virtual Conference & trainer at League of DiAthletes (LOD) Global Training programme.

Sadia Arshad was one of the global advocates trained at League of DiAthletes (LOD) Global Training Program 2020.

**League of DiAthletes training 2020** 

### **Advocacy at WHO**

On the 2nd of December, International Diabetes Federation (IDF) and World Health Organization's Regional Office for East Mediterranean (WHO-EMRO) joined hands to conduct an online webinar celebrating the role of nurses making a difference in the world of diabetes. Meethi Zindagi was a part of the diverse webinar discussion panel which included professionals and advocates from the region.

A three-point-action plan was put forth to World Health Organization and International Diabetes Federation.

- Training, educating and building the capacity of more nurses for diabetes care.
- Improved communication with and about the diabetes community.
- Nothing about the diabetes community without the community representatives

(WHO-EMRO) online webinar celebrating the role of nurses making a difference in the world of diabetes.

# Zeba Bakhtiar joins Board of Management

**Ms. Zeba Bakhtiar** joined Meethi Zindagi as a member of the Board of Management. Zeba, a Pakistani film and TV actress and director, was diagnosed with diabetes in her early 20s.

She is an inspiration to the diabetes community leading a happy life and successful career despite living with diabetes., She is a perfect ambassador of Meethi Zindagi.

Zeba emphasizes the importance of standing strong as a community to spread awareness and reduce the stigma and judgement around diabetes. She is a champion of the call for the abolishment of taxes on life-saving and life maintaining drugs.
